

# CORINA-IONELIA GAVRILĂ

★ JUNIOR FULL STACK  
DEVELOPER & QA ENGINEER

## SUMMARY

Dynamic Junior Full Stack Developer & QA Engineer with a strong passion for crafting engaging web experiences and ensuring top-notch software quality. Proficient in JavaScript, React, and Node.js, I have hands-on experience developing responsive web applications and collaborating with cross-functional teams to deliver scalable solutions. My expertise extends to QA testing, where I've conducted thorough testing processes, identified critical defects, and ensured compliance with industry standards. Eager to embrace new challenges, I'm actively seeking opportunities to contribute my skills to innovative projects and drive business success. Open to exploring new career opportunities and collaborations.

## Laboratory Engineer

ICompany Crama Bratu • Iul 2022 – Iul 2024

My experience as a Laboratory Engineer has honed key skills relevant to IT, including meticulous attention to detail, data analysis, and problem-solving. I have developed proficiency in using tools, precise documentation, and adherence to procedures, along with effective teamwork. These competencies enable me to tackle technical challenges with an analytical and methodical approach.

## Laboratory Technician

ICompany Tenuta Odobesti • Aug 2017 – Oct 2021

My experience as a laboratory technician and participation in cross-border and Erasmus projects have equipped me with technical skills, adaptability, and international collaboration experience. These competencies enhance my ability to manage complex projects, embrace diverse perspectives, and effectively solve problems in IT.
